---

The CAM plan for Permit P25 is attached.

The current CAM "plan" is incorporated into Permit P30 requirements.

Yes, related to this alleged violation:
Failure to Report CAM Excursions in the Semiannual Monitoring Report

An excursion means any pressure drop reading outside the indicator range specified in the Compliance Assurance Monitoring (CAM) Plan (40 CFR 64.1). The CAM plan states that the indicator range is between 3 and 6 inches of water for pressure drops

Where would I find where the CAM plan states the indicator range is 3-6 inches?

David,

CAM requirements are within permit 737009460-P30. Search for "CAM" and you will see the requirements.

Are you looking for something specific?

Ashley

Hi Ashley,

I'm working on revising the information for DOJ. Can you send me copy of 3M Wausau's CAM plan?

Thanks,

We are committed to service excellence.
